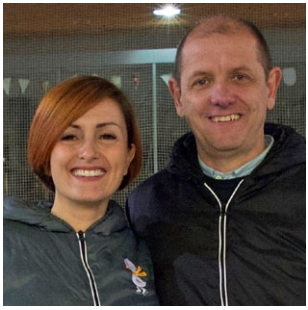
Mr. Horst Pichler
The Major of Egna



I'm very pleased to give the hospitality to all the athletes from around the world at my academy in the heart of the mountains in the beautiful South Tyrol, in the Authentic and friendly village of Egna. The continuous collaboration , the exchange of knowledge and the synergy are coming together when it comes to the excellence in figure skating. I adore this sport since I've put my skates on for the first time when I was 4. Ever since I was dreaming of a figure skating school where the athletes can work in the harmony, good environment and healthy atmosphere which characterized the meaning of sport.
The ice is my biggest adviser, when I have to take decisions regarding our Academy, I'm coming out of my Würtharena office and sitting upstairs closing my eyes, I'm hearing the sound of the blades scratching the ice which gives me a vision of the right decision and I'm being thankful.

Miss. Nicoletta Ingusci
Vice President of the Young Goose Academy
